Manufacturer Provided Description

The moment you step on board this magnificent Squadron, a wonderful 'large yacht' feeling of stylish elegance embraces you. The long central window running the full length of the sun pad on the foredeck not only floods the forward cabin with light but adds a unique look to the exterior. Up top, the huge flybridge is a masterpiece of practical design, with fabulous entertainment facilities and two large, luxurious day beds. The spacious single-level saloon, with its sumptuous furnishings and elegant cabinetry, merely hints at the stunning quality and standard of finish to be discovered throughout this extraordinary yacht. Whether to use the master stateroom or the forward cabin will be a dilemma for the owners, such will be the attractions of both, with their airy, light-filled atmosphere, spacious open-plan en suite layouts, elegant 'floating' bed designs and massive wardrobe and storage space. The panoramic windows and sheer luxury of the master en suite may make the choice easier though. Occupants of the aft cabin too, whether guests or crew, will enjoy their own en suite facilities and unusually large panoramic windows. A true Squadron in every sense - and a fine example of the ultimate in British marine engineering and craftsmanship.
